

# HIGH PURITY SILICA SAND

## INVESTMENT OPPORTUNITY SCORECARD

### MINING & METALS

# MINING & METALS

## HIGH PURITY SILICA SAND

**Opportunity Description:** Opportunity to produce 144 KT of High Purity Silica sand per year to serve the Saudi market

### INVESTMENT OVERVIEW

#### INVESTMENT HIGHLIGHTS

- Expected investment size of USD 6 Mn
- Plant Capacity: 144 KT
- Silica is one of the most common minerals in the earth's crust with the chemical formula  $\text{SiO}_2$ , most commonly found in nature as quartz and in various living organisms. In many parts of the world, silica is the major constituent of sand.

#### VALUE PROPOSITION

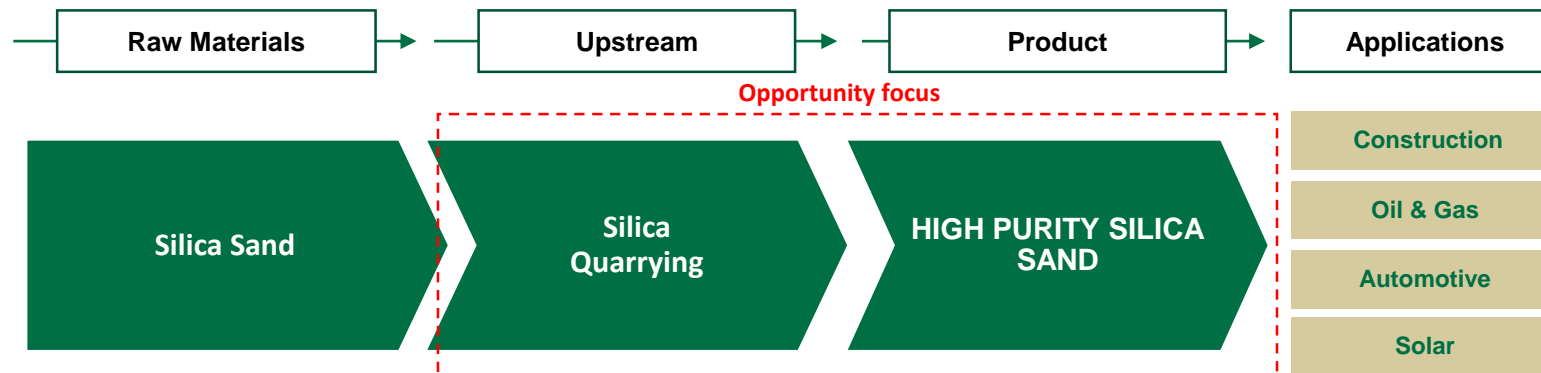

- Mining and Metals industry set to become the “third pillar” of the Saudi industrial base due to KSA’s rich deposits of minerals
- KSA’s geographical advantage and trade agreements with neighboring countries make exporting favorable
- Construction of Mega projects which will boost the demand of the key infrastructure investment projects include Neom, the Red Sea Project, Qiddiya Entertainment City, King Abdullah Financial District and Amaala
- High purity silica sand reserves (>98%) are available in the KSA with 1 billion tons of reserves along with adequate energy and infrastructure

### MARKET OVERVIEW

#### GLOBAL TREND

- The global silica sand consumption reached 450 Mn Ton in 2020 with expectation to grow at a CAGR 6.2% by 2026
- The accelerations in construction spending and manufacturing output worldwide are expected to drive growth in important silica sand-consuming industries, including the glass, foundry, and building products sectors.
- As technology advances, silica is being used for more technical applications such as aerospace, military and precision automotive parts.
- Hydraulic fracturing is a new market for silica sand downstream using horizontal drilling

#### VALUE CHAIN ANALYSIS

#### KEY DEMAND DRIVERS

- The KSA has set a target of 58.7 GW of renewable energy by 2030. This shall also boost further fuel demand for silicon metal as it is one of the primary materials utilized in the composition of solar cells.
- Silicon metal demand is boosted by the regional increase in the aluminum-silicon alloys market.
- Governmental commitment towards net zero carbon emissions and renewable energy to drive demand in the GCC which will boost the demand for Solar as its main Raw material is Silica Sand

# DEFINITIONS

#	SCORECARD SECTION	DEFINITIONS
1	<b>Market size</b>	Size of market in value/volume in KSA and/or Region (MENA/GCC) covering future projections based on available estimates from published /government sources
2	<b>Business drivers</b>	A select number of factors that will influence future demand for the related product/service
3	<b>Investment highlights</b>	An overview of key financial metrics summarizing the investment opportunity along with the expected return based on the suggested investment size
4	<b>Value proposition</b>	Summary of key differentiators that position KSA as a strategic choice over other regional/global peers
5	<b>Market readiness</b>	An overview of KSA market structure, market maturity and level of participation by local and global players
6	<b>Competitor analysis</b>	List of the local & international players manufacturing the underlying product in Saudi Arabia and their market share
7	<b>Global trends</b>	Latest business developments within the sector/product category
8	<b>Scalability and localization</b>	Ease of scaling the business across the value chain or into new adjacent products or geographies that would maximize the opportunity's investment returns and the ability and potential to locally manufacture the product and its components
9	<b>Import dependency</b>	An overview of the countries from which Saudi Arabia is importing the product and their value/volume and share in total imports
10	<b>Value chain analysis</b>	The process or activities that would potentially need to be carried out to deliver the underlying product or service
11	<b>Key stakeholders</b>	Government institutions, organizations, and/or authorities that participate or influence the market for the underlying product/service
12	<b>Enablers</b>	Factors that enable investment in the underlying opportunity
13	<b>Cost of doing business in KSA</b>	Key factors that position KSA as a competitive destination for investment in the region. Productivity adjusted wages do not include cost of \$1.23/hour towards annual recurring charges including work permit, resident identity (iqama) and health insurance
