

Sulfur dioxide INVESTMENT OPPORTUNITY SCORECARD CHEMICALS

AUGUST 2021

CHEMICALS Sulfur dioxide

OPPORTUNITY DESCRIPTION: Opportunity to setup Sulfur dioxide manufacturing plant in KSA to cater regional and global demand

DEMAND INVESTMENT OVERVIEW MARKET SIZE, KMT VALUE PROPOSITION KSA is one of the largest chemical producers in the world and contributes ~10% to the global output KSA is strategically located at the crossroads of several markets that have high demand for chemical products 30.4 1.4% 30.0 KSA benefits from having an abundant access to raw materials and a high standard of infrastructure that is continuously being improved upon 28.8 28.4 Opportunity for first mover advantage due to non-existent local production of Propionic Acid and lack of competition from major global 28.0 ,969 .950 1% manufacturers .930 1.911 .892 1.874 This opportunity has a strategic alignment with vision 2030 and National Industrial Strategy by supporting many sectors such as 1.855 automotive and food and beverage 2020 2021 2022 2023 2024 2025 2019 **Global Demand** Regional Demand

KEY DEMAND DRIVERS

- The growth potential for sulfur dioxide remains challenged by mounting regulations and environmental pressures, as well as the high risks and costs associated with handling and transportation.
- It can be used for manufacturing sulfuric acid at ADDAR Chemicals' manufacturing plant in Al Jubail. Sulfur is also available in Al Jubail. Hence, it will be beneficial to produce sulfur dioxide in Al Jubail.

MARKET OVERVIEW

GLOBAL TRENDS

- Sulfur dioxide demand in the region is around 28,000 metric tons. Existing demand and some downstream industries in place but limited domestic demand growth opportunity.
- Applications include use in water treatment; pulp and paper manufacture; leather, mineral, and food processing; dyes; lubricants; and chemical manufacture, as well as smaller niche applications such as in catalysts and photography.
- Overall global miscellaneous sulfur compound consumption is estimated to rise 1.5% annually, with individual product growth rates ranging between 0.4% and 2.7% annually.

DEFINITIONS

#	SCORECARD SECTION	DEFINITIONS
1	Market size	Size of market in value/volume in KSA and/or Region (MENA/GCC) covering future projections based on available estimates from published /government sources
2	Demand drivers	A select number of factors that will influence future demand for the related product/service
3	Investment highlights	An overview of key financial metrics summarizing the investment opportunity along with the expected return based on the suggested investment size
4	Value proposition	Summary of key differentiators that position KSA as a strategic choice over other regional/global peers
5	Market readiness	An overview of KSA market structure, market maturity and level of participation by local and global players
6	Competitor analysis	List of the local & international players manufacturing the underlying product in Saudi Arabia and their market share
7	Global trends	Latest business developments within the sector/product category
8	Scalability and localization	Ease of scaling the business across the value chain or into new adjacent products or geographies that would maximize the opportunity's investment returns and the ability and potential to locally manufacture the product and its components
9	Import dependency	An overview of the countries from which Saudi Arabia is importing the product and their value/volume and share in total imports
10	Value chain analysis	The process or activities that would potentially need to be carried out to deliver the underlying product or service
11	Key stakeholders	Government institutions, organizations, and/or authorities that participate or influence the market for the underlying product/service
12	Enablers	Factors that enable investment in the underlying opportunity
13	Cost of doing business in KSA	Key factors that position KSA as a competitive destination for investment in the region
